## HACCP conveyor and process belts

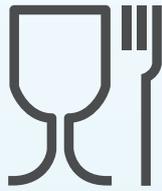

**Bakery**

# HACCP conveyor and process belts for bakery

CHIORINO manufactures conveyor and process belts that fully comply with the latest european and international Food Regulations, and are particularly recommended for the HACCP system.

The wide range of CHIORINO food belts is developed to satisfy all demanding applications in bread, biscuits, snacks processing and packaging, assuring safe and high quality baked products.

## Certified Food Compliance

To protect Consumer's health, CHIORINO process and conveyor belts comply with the latest european and international Food Regulations:

**REGULATION EC 1935/2004** and amendments

**REGULATION EC 2023/2006** and amendments

**REGULATION EU 10/2011** and amendments

**FDA (Food and Drug Administration)**

**REGULATION NSF/ANSI 3-A 14159-3-2014** and amendments

**USDA (United States Department of Agriculture)**

**HALAL (World Halal Authority)**

The careful selection of raw materials, the constant adjustment by R&D Department to the legislative developments in food safety, the strict controls throughout the production process (Good Manufacturing Practices) guarantee total food compliance of CHIORINO belts.

Declarations of compliance as prescribed by law are available for every CHIORINO food belt.

Thus, the Customers are certain to use materials that fully comply with the HACCP system.

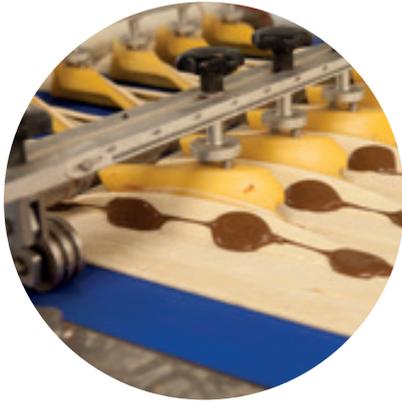

# Leading brand for hygiene and food safety

The HP® conveyor and process belts are the benchmark in the food industry as far as **hygiene, performance** and **working life** are concerned.

The HP® belts fully support all the **HACCP procedures** through the whole food manufacturing process.

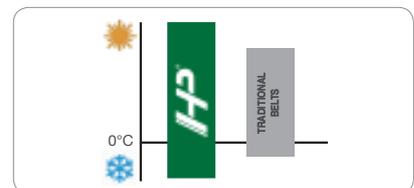

## + BENEFITS

- **Total respect of the HACCP system**
- **Non staining**
- **Easy to clean**
- **Time, water and energy saving**
- **Long service life**

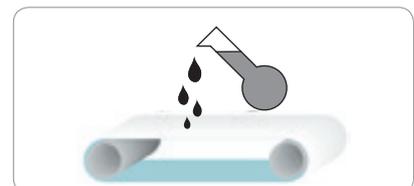

### Resistance to high/low temperatures

The HP® belts offer increased resistance to high temperatures compared to traditional polyurethane belts and maintain their characteristics even at lowest temperatures.

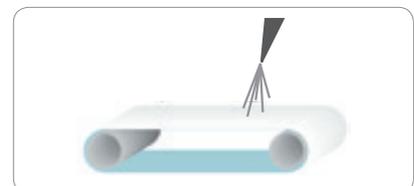

### Resistance to oils and chemical agents

The HP® belts ensure an excellent resistance to the chemical agents, fats and aggressive oils, including sunflower, palm and coconut oil.

### Resistance to hydrolysis

The HP® belts guarantee an excellent resistance to hydrolysis as well as the chemical and mechanical action of washing with hot water and steam, including in continuous systems.

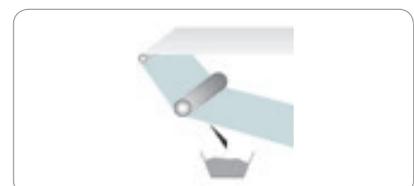

### Clean-in-place

HP® belts can be subjected to continuous washing systems with hot water and detergents without undergoing any deterioration.

### Superior flexibility and mechanical resistance

The HP® belts offer a superior flexibility and are extremely resistant to abrasion and mechanical stress caused by knife edges, backflexing and scrapers.

# Dehesive line - Excellent release properties

---

The Chiorino HP® dehesive belts offer excellent **release** of any kind of **sticky** product. The high release properties are guaranteed by both **low friction** and **high friction** HP® belts.

Excellent alternative to silicone belts.

Scrapers can be used.

## + BENEFITS

- Non marking
- Easy to clean
- Excellent product transfer
- Perfect product positioning

# Ultimate positive drive belt - Accuracy and precision

---

HP COMPACT MINI DRIVE® is the ultimate solution for **food positive drive** belts featuring a **reduced teeth pitch**.

Ideal for running on small pulleys, it assures **smooth product transfer** and **increased production efficiency**.

## + BENEFITS

- Accurate product transfer
- No mistracking. No misalignments
- Suitable for bi-directional running
- Ideal for high speed
- Optimized cost of ownership

# Detectable solutions - Contamination-free food

Chiorino DET™ is a full range of **food grade metal detectable** products.

The exclusive DET™ TPU belt is **recognized** in very **small particles** by the metal detectors used in food processing and packaging.

Chiorino DET™ line guarantees a **safest food production** and **prevents products recalls**.

## + BENEFITS

- **Guaranteed food safety**
- **No food contamination**
- **Waste reduction**
- **Prevents product recalls**
- **Long service life**

## Superior detectability +300%

R&D comparison between Chiorino DET™ line and average competitors shows that the DET™ line is far more detectable: **+ 300%**.

A very small debris of DET™ belt is recognized by the metal detector.

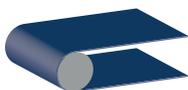

The **prompt identification** and removal of the contaminated product assures a **safest food** processing and packaging.

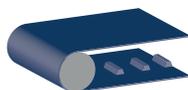

MINIMUM DETECTABLE PART

*Based on R&D analysis run on the same metal detector. The Chiorino DET™ particle recognized by metal detector is three times smaller than competitor's.*

Guides

Profiles

# Bread

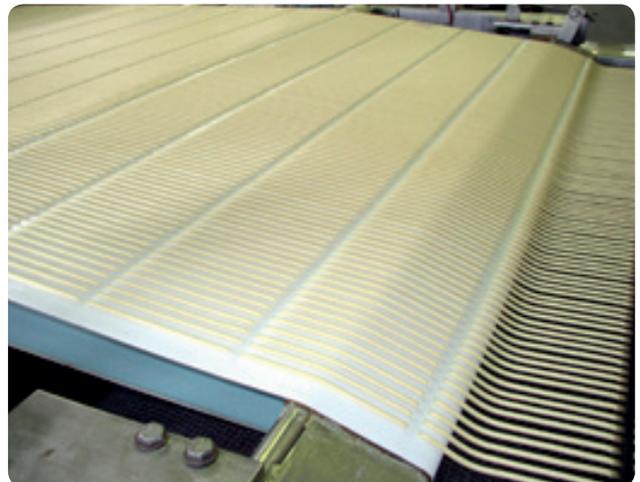

Thanks to its wide know-how and expertise, Chiorino offers a comprehensive range of high performance food belts for processing any kind of dough through the whole production line of bread, pizza, biscuits and crackers.

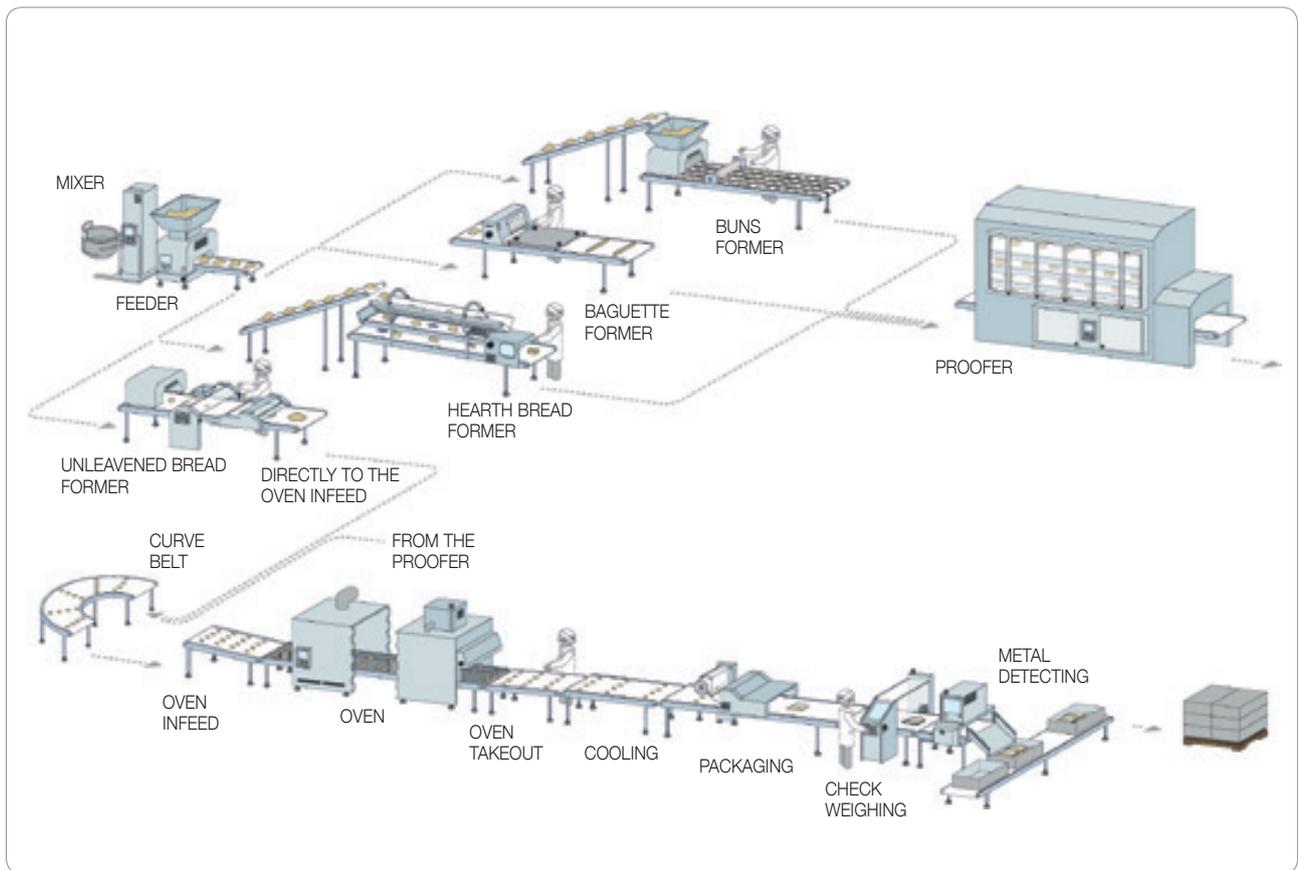

## KEY FEATURES + BENEFITS

Fray-free edges	>	<b>Product safety and no contamination</b>
Superior resistance to aggressive fats and oils	>	<b>Highest reliability even with scrapers</b>
Excellent release properties	>	<b>Product waste reduction and cost saving</b>
Resistance to high temperature	>	<b>Total flat running and long service life</b>

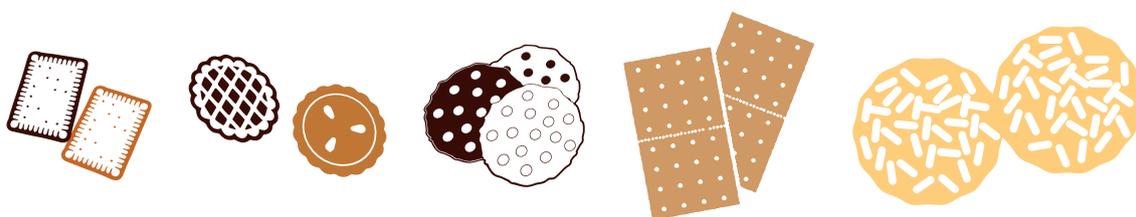

## Industrial line for bread production

# Biscuits and crackers

Thanks to its wide know-how and expertise, Chiorino offers a comprehensive range of high performance food belts for processing any kind of dough through the whole production line of bread, pizza, biscuits and crackers.

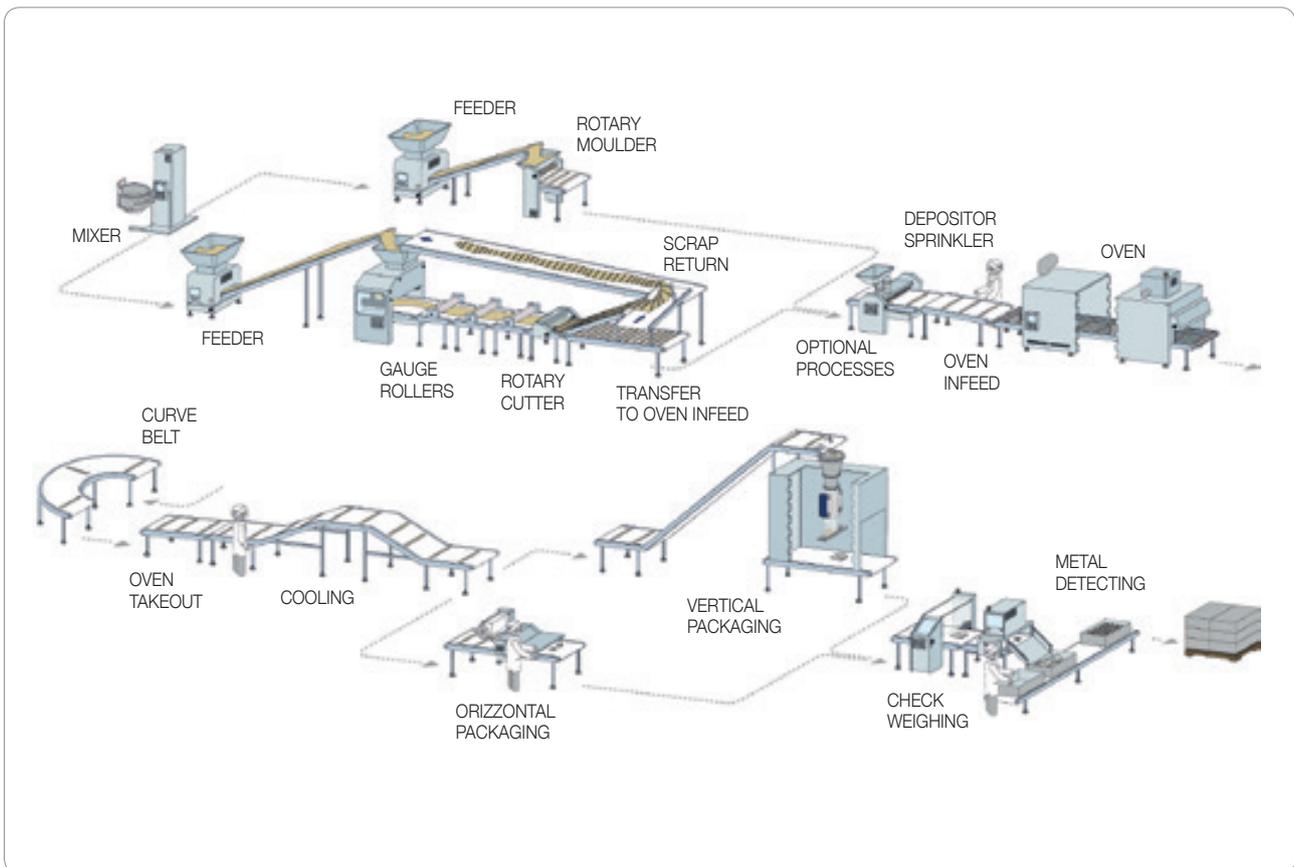

## KEY FEATURES + BENEFITS

Fray-free edges	>	<b>Product safety and no contamination</b>
Excellent resistance to cut and abrasion	>	<b>Highest reliability even with scrapers</b>
Superior resistance to aggressive fats and oils	>	<b>Increased service life</b>
Resistance to high temperature	>	<b>Total flat running and long service life</b>

## Industrial line for biscuits and crackers production

### Specialized belts for Rotary Cutters

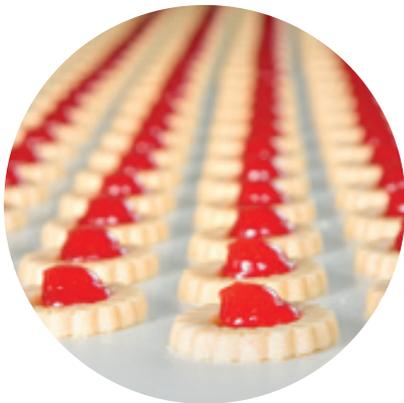

Chiorino offers specialized belts for rotary cutters assuring **optimal friction** and **release properties**.

The high mechanical properties guarantee **excellent resistance to cutting**, increasing **reliability** and **service life**.

#### + BENEFITS

- **Precise dough cutting**
- **Production efficiency**
- **Long service life**

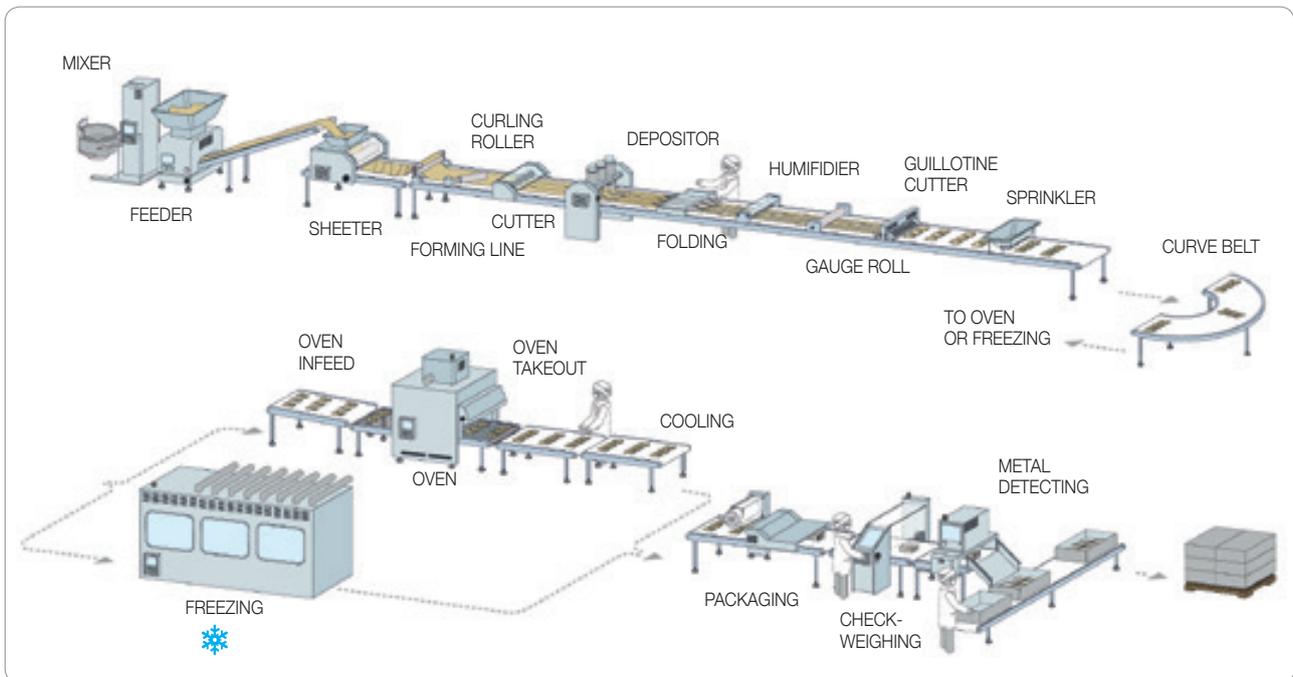

# Pastry

## KEY FEATURES + BENEFITS

Superior resistance to aggressive fats and oils	>	<b>Highest reliability even with scrapers</b>
Fray-free edges	>	<b>Product safety and no contamination</b>
Excellent release properties	>	<b>Product waste reduction and cost saving</b>
Resistance to high and low temperatures	>	<b>Total flat running and long service life</b>

### Industrial line for pastry production

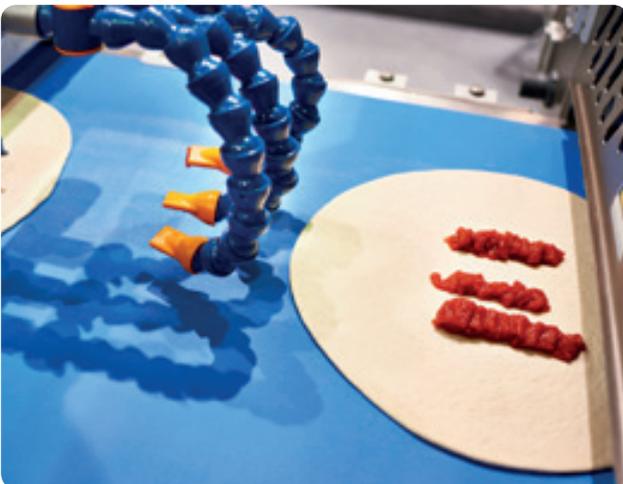

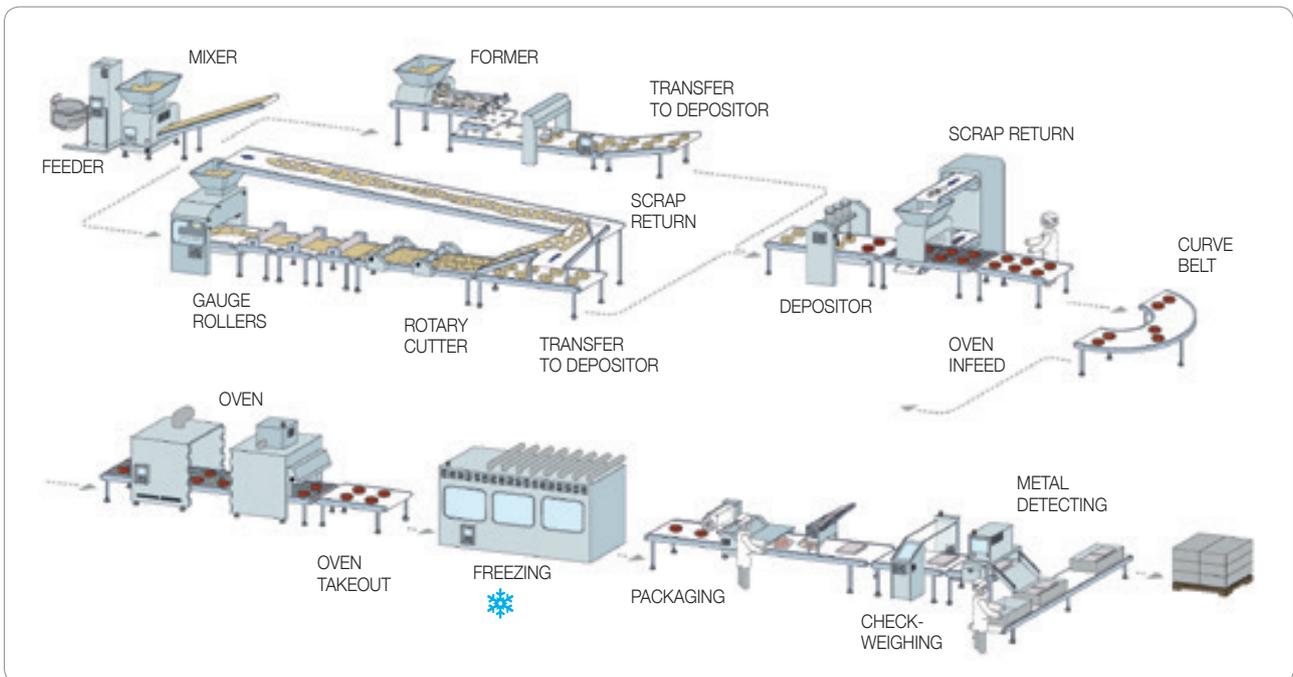

# Pizza

## KEY FEATURES + BENEFITS

Fray-free edges	>	<b>Product safety and no contamination</b>
Superior resistance to aggressive fats and oils	>	<b>Highest reliability even with scrapers</b>
Excellent resistance to cut and abrasion	>	<b>Highest reliability even with scrapers</b>
Resistance to high and low temperatures	>	<b>Total flat running and long service life</b>

## Industrial line for pizza production

# Snacks

The **versatile range** of Chiorino food belts is suitable for processing **any kind of snacks** like bretzels, bars, potato chips, frozen fries etc.

## Release properties

The excellent release properties of the Chiorino belts assure **best performances** with the **most sticky** products, such as muesli bars etc.

## KEY FEATURES + BENEFITS

High resistance to baking oils

> Long service life

Fray-free edges

> Product safety and no contamination

Suitable for high speed production

> Cost saving

Wide range of blue belts

> Easy impurities identification and low light reflection

# Packaging

The wide range of Chiorino belts assures **safe and hygienic packaging** of all baked products or snacks.

## **HP**<sup>®</sup> elastic belts

The **elastic HP<sup>®</sup> fibreless** and **highly resilient** food belts can be **easily fitted** on spreaders or electronic check-weighers.

Total feeding precision

Quick and easy to fit and replace without tensioning devices

Fully HACCP compliant thanks to their extraordinary resistance to cleaning systems

Blue surface and a wide range of patterns

## **MF**<sup>™</sup> seamless belts

CHIORINO manufactures **truly endless** belts for vertical form-fill seal machines, with different coverings according to the type of packaging used.

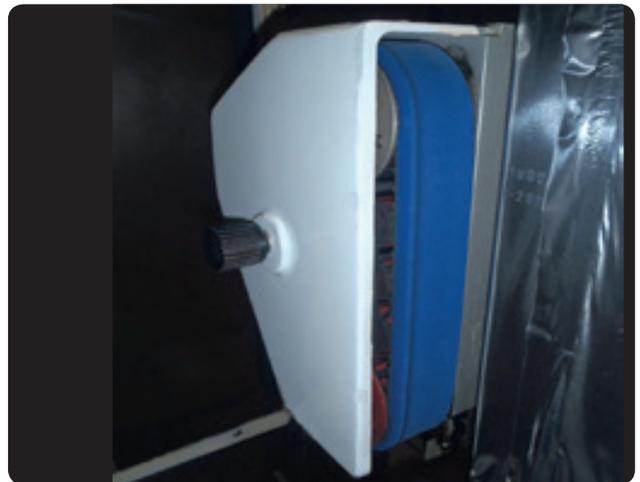

**Silicone blue:** food grade belts ideal for aseptic packagings

**HS W white:** both for PVC and polyethylene films and abrasive packagings (paper, fabric, etc.)

**R purple red:** both for PVC and polyethylene films and abrasive packagings (paper, fabric, etc.)

**B beige:** for very abrasive packagings.

Available with **special executions:** countersunks, punched holes, diagonal slots, groovings, application of polyurethane or rubber timing belts.
