

PRESS RELEASE

Belt Power Opens Material Handling Center of Excellence in Memphis, Tennessee

Memphis, August 2023 – Belt Power, a pioneer in industrial solutions, proudly announces the opening of its cutting-edge facility dedicated to the Material Handling group and providing local service to all industries. Centrally located in Memphis, this remarkable establishment underscores Belt Power's unwavering commitment to innovation, efficiency, and exceptional customer service.

Elevating Your Operations with Ready Key Products

Our shelves house a comprehensive range of industry-leading products, ensuring access to the finest material handling solutions. From conveyor components to specialized equipment, our facility boasts an array of key products ready to empower your business.

Agile Team for Swift Solutions and Reduced Downtime

Combining an agile team with our short lead time focus, we guarantee rapid responses that minimize downtime and enhance productivity. This Center of Excellence is not only dedicated to providing solutions but also functions as a hub for training and innovation, cultivating industry-leading expertise.

Efficient Belting Solutions Delivered Promptly

Belt Power's new facility is primed to swiftly ship premium belting solutions. Our extensive inventory of high-quality belting materials is ready for immediate dispatch, enabling you to minimize downtime and optimize efficiency.

"We are thrilled to unveil this new chapter in Belt Power's journey," said James Thorpe, Director of Material Handling. "Our facility stands as a testament to Belt Power's unwavering commitment to delivering top-tier material handling solutions and exceptional customer experiences."

Belt Power is an industry leader in providing solutions that cater to its customers' needs. With a steadfast focus on innovation, quality, and customer satisfaction, the company continues to redefine industry standards and empower businesses to thrive.
